The Brain Plasticity Laboratory within the Divisions of Physical Therapy and Rehabilitation Science at the University of Minnesota is actively recruiting participants for a research study to investigate brain connections related to body awareness and upper limb recovery after stroke. Therapist-based treatment will be given for 6 weeks, 3x/week, 45 min.

ELIGIBILITY CRITERIA

People with stroke must:
- Be greater than 18 years of age
- Be able to hear and comprehend the instructions given in the study
- Have no metal implants in the body
- Not be pregnant
- Have problems with moving the arm or hand

People with stroke must:
- Be diagnosed with stroke at least 6 months ago
- Have the cause of stroke due to a clot in the brain (= ischemic stroke), NOT due to bleeding
- Have no other injuries or illnesses unrelated to stroke
